

ADDENDUM NUMBER 2

Franklin Landfill Infrastructure Design

Project Number: V022-16802

Date of Addendum: February 23, 2016

This Addendum to the Request of Proposal is issued to modify, explain or correct the original documents, dated Feb. 8, 2016, and is hereby made part of the Request for Proposal.

Acknowledge receipt of this addendum in the Letter of Transmittal, as part of your proposal submission.

QUESTION & CLARIFICATION

The following clarification is provided for the related question

Question

On page 3 of the RFP, the scope is defined for the Task 1 Basis of Design. It includes "the proposed development of the western acreage"... During the pre-proposal meeting, you had mentioned the western portion of the project was not funded yet. Should we include the proposed development on the western acreage? The western portion actually consists of two areas: (a) The Rock proposed development and (b) The gas wells and header serving the homes in the northwest part of the site. Which areas should be include under Phase 3?

Response

This scope of this phase does not include the re-design of the wells/headers on the western acreage, but the BOD report for this phase should try to account for whatever assumptions we're making about the development of the western acreage; e.g., if we're assuming the number of wells and extraction rate from those western wells remains unchanged, or that the flare station remains the same, etc. This phase - "phase 3" is only for the wells and header along the Crystal Ridge Drive.
